

Agents of Ingenuity Live Conversations

Agents of Ingenuity is focused on Cleveland as a globally competitive city for innovation and manufacturing, with an emphasis on the viewpoint of creative professionals. Structured as unlikely conversations between representatives from big business, small start-ups, the artistic community and academia, our program will continue to grow with live evening cocktail discussions, onsite events, and a presence at IngenuityFest 2016. Interested in telling your story? Get involved at ingenuitycleveland.com/agents-of-ingenuity.

Agents of Ingenuity Radio Show and Podcast

As part of our mission to engender the flow of ideas, our recorded podcasts create a year-round network of thought leaders that ties our community together through a permanent archive. We work with Design Lab High School, a STEM and project-based learning institution, as part of an emerging program in recording technology for students. The shows feature interviews with innovators who support the creative landscape in our region and beyond. Listen or become a sponsor at ingenuitycleveland.com/agents-of-ingenuity.

Cleveland Industrial Design: Past & Future

With Ned Hill, Kelly Falcone-Hall and David Allen Moss

Industrial Design has been a formative influence in Cleveland's past, which will continue to shape our present and future. This Cleveland history of industrial design looks at how our strong design landscape laid the foundation for competitive advantage in our region. With Ned Hill, Professor of Public Affairs and City & Regional Planning at the Ohio State University; Kelly Falcone-Hall, President & CEO of the Western Reserve Historical Society, and David Allen Moss of Moss Media. Moderated by Kathy Cook, knowledge enthusiast and Bob Rose, President of Rose Metal Industries and Rose Ironworks. This program is part of a series focusing on entrepreneurship & industry.

June 16, 2016:

Youth Entrepreneurship & Neighborhood Growth

Dr. Edward Hill teaches in both the Glenn College and the College of Engineering's Knowlton School of Architecture at the Ohio State University, and led the CSU Levin College of Urban Affairs for eight years previously. He has been a senior fellow of The Brookings Institution, has served on government task forces, and has edited and authored numerous publications. He holds doctoral degrees in economics and urban & regional planning, and a Master's degree in city planning from the Massachusetts Institute of Technology.

Kelly Falcone-Hall is the President and CEO of the Western Reserve Historical Society. She joined the Organization in 1995 as an intern in the Archives/Library, and has served in nearly every capacity since, working in Historical Research, Interpretation, Advancement, Governmental Relations, and Administration at both Hale Farm & Village in the Cuyahoga Valley National Park, and the Cleveland History Center in University Circle. She leads through collaboration and community engagement in support of the WRHS mission.

David Allen Moss has been an active ambassador of the creative industries and champion of Cleveland's design community for over 15 years. He is the founding director of the Cleveland Institute of Art's FUTURE Center for Design and Technology, as well as Cofounder and Creative Director for a series of startups: the boutique Boondock Walker, the breakthrough Emerging Chefs culinary film and events company, and an agile brand strategy and design collaborative, Moss Media.

Kathleen Cook is a Business Development Executive for IBM. She has over 25 years of experience in the Information Technology Industry with a focus on business renovation through the technologies of Cloud, Data Analytics, Mobile and Security. Her background is in corporate merger & acquisition, process innovation, and market development. She serves on Ingenuity's board.

Bob Rose is the third generation owner and president of Rose Iron Works and Rose Metal Industries, companies with a hundred-year reputation for excellence in high end decorative metalwork & innovative technical design. Bob's training in Mechanical Engineering at Carnegie Mellon, coupled with his family's artistic genes, have provided the left-right brain mix required to function as management as well as both engineering and artistic director of the companies. He serves on Ingenuity's board.
